Memorandum

To: Regional Directorate, Region 2

From: **ACTING** Regional Director, Region 2 *Larry S Bell*

Subject: Southwest Region Hurricane Response Plan

Attached below is the Southwest Region Hurricane Response Plan. Please ensure that Project Leaders in your program areas receive a copy. Project Leaders should include hurricane preparedness topics in staff meetings to ensure staff are informed of preparedness activities, evacuation routes, protocols, and post-storm notification of the personal status and location of employees. Tropical storm forecasters are predicting an active season this year, so all preparations should be made accordingly.

The Plan may also be accessed at www.fws.gov/southwest/hurricaneinfo on the internet. Questions or concerns may be addressed to Dave Lentz, Regional Fire Management Coordinator, at 505-248-6474.
